

RIDDHI POLYMERS

COMPANY PROFILE

IN THE TRADE SINCE 1996 · ISO 9001:2015

South India's most **trusted** chemical supply partner.

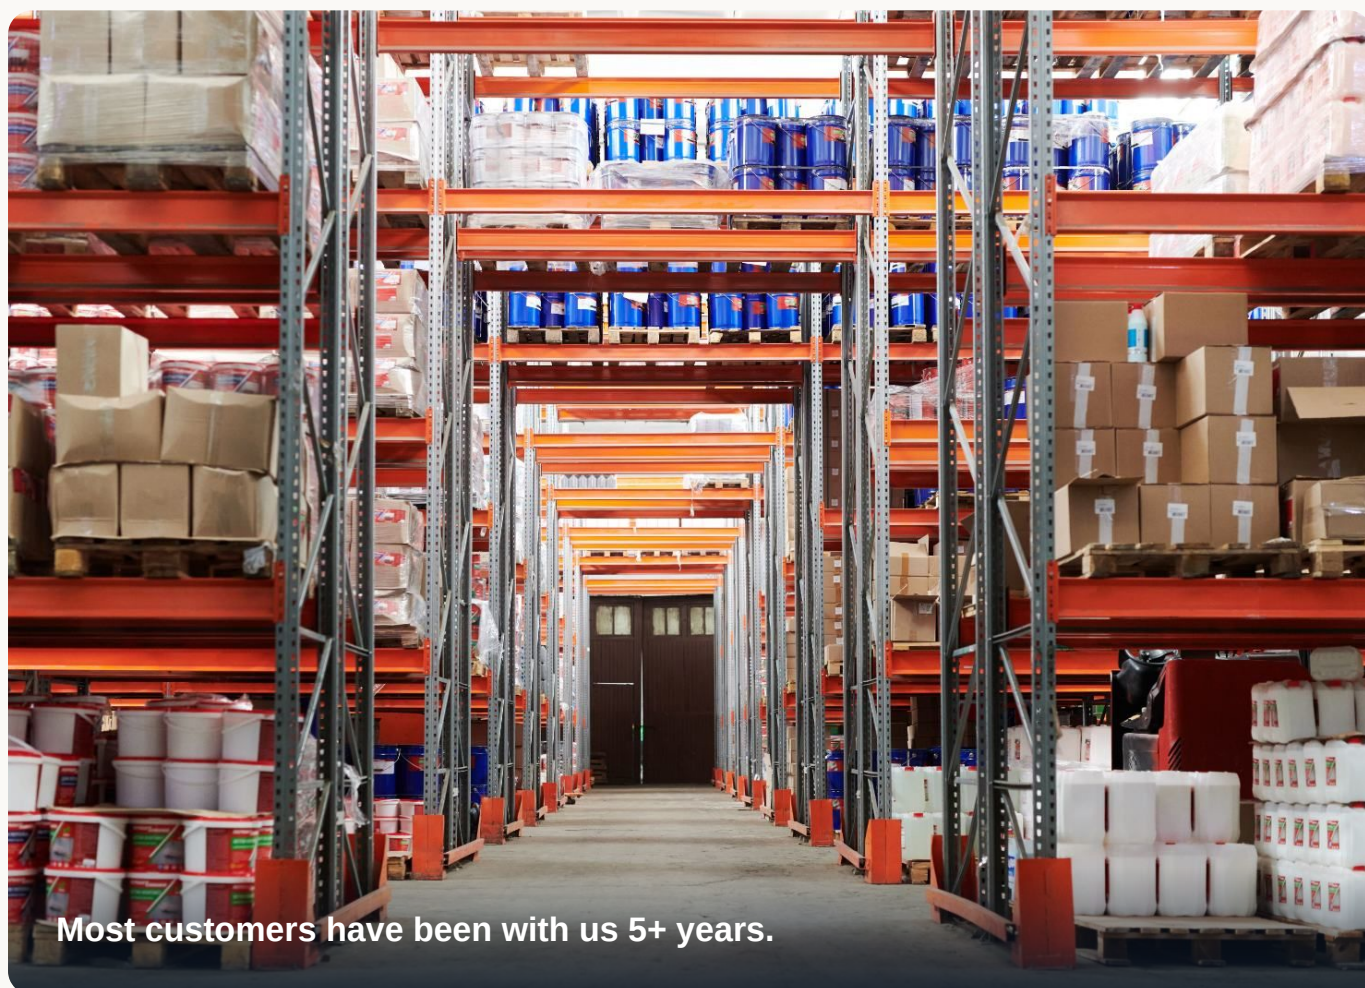

Rubber raw materials and industrial chemicals, sourced direct from global principals and delivered to manufacturers across Tamil Nadu and South India.

WHO WE ARE

Built on ethics. Measured by relationships. Invested in your growth.

Our founder has been in the rubber and chemical trade since 1996 and started Riddhi Polymers in Chennai in 2009. We track stock before it runs low and hold buffer stock, so regular customers aren't left short when the market is.

Today we supply 400+ manufacturers, from compound mixers and Indian MSMEs to listed companies, international manufacturers and world-leading multinationals. Samples come before bulk orders, and COA and MSDS with every dispatch.

Most customers have been with us 5+ years.

400+

Manufacturers supplied

30

Years in the trade, since 1996

250+

Grades in stock

20+

Global principals

15,000+

Sq ft warehouse

PRODUCT RANGE

250+ grades across ten categories.

Held in stock at our Chennai warehouse and supplied with full batch documentation.

Carbon Black

Reinforcing and semi-reinforcing grades for rubber and ink.

Rubber Chemicals

Accelerators, antioxidants and curatives.

Process Oils

Aromatic, paraffinic and naphthenic oils.

FKM Fluoroelastomers

High-temperature, chemical-resistant grades.

Resins & Adhesives

Tackifying, reinforcing and bonding resins.

Reclaim Rubber

Reclaimed rubber grades for cost-efficient compounds.

Plasticisers & Waxes

Plasticisers and protective waxes.

Fillers & Silica

Precipitated silica and mineral fillers.

Polymers

Natural and synthetic rubbers and specialty elastomers.

Activators

Zinc oxide, stearic acid and cure activators.

SECTORS WE SUPPLY

One supply partner for every rubber & chemical line.

01 Tyres & Tubes

Carbon black, rubber chemicals and process oils.

03 Automotive Rubber

Specialty elastomers, bonding agents, curatives.

05 Conveyor Belts

Reinforcing blacks, resins and process aids.

07 Latex & Foam

Activators, stabilisers and fillers.

09 Paint & Coatings

Carbon black, TiO_2 , resins and dispersants.

11 Defence & Aerospace

High-performance elastomers and sealants.

02 Footwear & Soles

Fillers, resins and reclaim for soles and sheets.

04 Cables & Wires

EPDM, plasticisers, silica, flame retardants.

06 Moulded & Extruded

Gaskets, seals, hoses and profiles.

08 Adhesives & Sealants

Bonding agents, resins and tackifiers.

10 Printing Inks

Specialty blacks, dispersants, flow additives.

+ Don't see your industry?

Ask us. We source to specification.

FOR PRINCIPALS

Sourced direct from the world's leading producers.

For producers entering South India, we offer a proven route to 400+ manufacturers across 11 industries, backed by local stock and ISO 9001:2015 processes.

WHAT WE DO

Six ways we add value.

Competitive Pricing

Volume relationships and direct principal access keep your landed cost low on every grade.

Genuine & Transparent Sourcing

Every grade sourced direct from named, verifiable principals, with full documentation.

Principal & Technical Support

Right-grade guidance, samples on request and hands-on help from our global principals.

Quality Assurance

ISO 9001:2015 processes and full batch documentation, so every order performs like the first.

Pan-South India Logistics

A delivery network that keeps material moving to your plant on a schedule you can plan around.

Inventory & Just-in-Time

Buffer stock for regular customers, so supply holds even during market scarcity.

HOW IT WORKS

Four steps, from first sourcing to long-term supply.
